

## Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

## Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

Lion-head on every package. Save these Lion-heads for valuable premiums.

"Mrs. Livestock is with her," said she, "and they will return together in April."

"Mrs. Fuller, did she send any word to me?" I inquired anxiously. "Did she give you no message?"

"None," she said coldly, "except one to her mother and father, which I have sent in a letter to them."

I left her heavy hearted, went to the reporter's table and wrote my story, very badly. I must admit, for I was out deep with sadness. Then I came away and walked for hours, not caring whither. A great homesickness had come over me. I felt as if a talk with Uncle Elmer or Elizabeth Brower would have given me the comfort I needed.

I walked rapidly through dark, deserted streets. A sleazy clock was striking 2 when I heard one coming hurriedly on the walk behind me. I looked over my shoulder, but could not make him out in the darkness, and yet there was something familiar in the step. As he came nearer I felt his hand upon my shoulder.

"Better go home, Brower," he said, as I recognized the voice of Trumbull. "You've been out a long time. Passed you before tonight."

"Why didn't you speak?"

"You were preoccupied."

"Not keeping good hours yourself," I said.

"Rather late," he answered, "but I am a walker, and I love the night. It is so still in this part of the town."

We were passing the Five Points. "When do you sleep?" I inquired.

"Never sleep at night," he said, "unless uncommonly tired. Two hours in the morning and two in the afternoon—that's all I require. Seen the hands of that clock yonder on every hour of the night?"

He pointed to a lighted dial in a near tower.

Stopping presently, he looked down at a little watch asleep in a doorway, a

bundle of evening papers under his arm. He lifted him tenderly.

"Here, boy," he said, dropping coins in the pocket of the ragged little coat. "I'll take those papers. You go home now."

We walked to the river, passing few save members of "the force," who all

"Here, boy, I'll take those papers."

ways gave Trumbull a cheery "Hello, cap!" We passed wharfs where the great sea horses lay stalled, with harnesses hung high above them, their noses nodding over our heads. We stood awhile looking up at the looming masts, the lights of the river craft.

"Guess I've done some good," said he, turning into Peck slip. "Saved two young women. Took 'em off the streets. Fine women now, both of them—respectable, prosperous, and one is beautiful. Man who's got a mother or a sister can't help feeling sorry for such people."

## CHAPTER XXV.

AS soon as Lincoln was elected the attitude of the south showed clearly that "the irrepressible conflict" of Mr. Sewer's naming had only just begun. The Herald gave columns every day to the news of "the coming revolution," as it was pleased to call it. There was loud talk of war at and after the great Pine street meeting of Dec. 15. South Carolina seceded five days later, and then we knew what was coming, albeit we saw only the dim shadow of that mighty struggle that was to shake the earth for nearly five years. The printer grew highly irritable those days and spoke of Buchanan and Davis and Toombs in language so violent it could never have been confined in type. But, while a bitter foe, none was more generous than he, and when the war was over his money went to bail the very man he had most roundly damned.

I remember that one day when he was sunk deep in composition a negro came and began with grand airs to make a request as delegate from his campaign club. The printer sat still, his eyes close to the paper, his pen flying at high speed. The colored orator went on lifting his voice in a set petition. Mr. Greeley bent to his work as the man waxed eloquent. A nervous movement now and then betrayed the printer's irritation. He looked up shortly, his face kindling with anger. "Help! For God's sake!" he shrieked impatiently, his hands flying in the air. The printer seemed to be gasping for breath.

"Go and stick your head out of the window and get through!" he shouted hotly to the man.

He turned to his writing, a thing dearer to him than a new bone to a hungry dog.

"Then you may come and tell me what you want," he added in a milder tone.

Those were days when men said what they meant, and their meaning had more fight in it than was really polite or necessary. Fight was in the air, and before I knew it there was a wild, devastating spirit in my own bosom, inasmuch that I made haste to join a local regiment. It grew apace, but not until I saw the first troops on their way to the war was I fully determined to go and give battle with my regiment.

The town was afire with patriotism. Sumter had fallen. Lincoln had issued his first call. The sound of the fife and drum rang in the streets. Men gave up work to talk and listen or go into the sterner business of war. Then one night in April a regiment came out of New England on its way to the front. It lodged at the Astor House, to leave at 9 in the morning. Long before that hour the building was flanked and fronted with tens of thousands, crowding Broadway for three blocks, stuffing the wide mouth of Park row and braced into Vesey and Barclay streets. My editor assigned me to this interesting event.

I stood in the crowd that morning and saw what was really the beginning of the war in New York. There was no battle of voices, no impatient call, no sound of idle jeering such as one is apt to hear in a waiting crowd. It stood silent, each man busy with

the rising current of his own emotions, solemnized by the faces all around him. The soldiers filed out upon the pavement, the police having kept a way clear for them. Still there was silence in the crowd, save that near me I could hear a man sobbing. A trumpeter lifted his bugle and sounded a bar of the reveille. The clear notes cleft the silent air, flooding every street about us with their silver sound. Suddenly the band began playing. The tune was "Yankee Doodle." A wild, dismal, tremulous cry came out of a throat near me. It grew and spread to a mighty roar, and then such a shout went up to heaven as I had never heard and I know full well I shall never hear again. It was like the riving of thunderbolts above the roar of floods—elemental, prophetic, threatening, ungodly. It did seem to me that the holy wrath of God Almighty was in that cry of the people. It was a signal. It declared that they were ready to give all that a man may give for that he loves—his life and things far dearer to him than his life. After that they and their sons begged for a chance to throw themselves into the

blooming path of war.

## NO EARLY ACTION

It Is Now Believed Big Sea Fight Will Be Delayed Some Time.

## STRATEGIC REASONS

Naval Circles Hold That Togo Will Not Be Ready Until He Has Crippled Russian Fleet.

Nor Will Rojestvensky Be Ready Until He Has His Desired Reinforcements.

Saigon, April 26.—Nine warships, supposed to be Vice Admiral Nebogatoff's detachment of the second Pacific squadron, doubled Cape Bake last night. Cape Bake is about fifty miles northeast of Saigon.

St. Petersburg, April 26.—Admiralty circles are coming to accept the view that there will be no great or general action between the fleets of Russia and Japan for some time, basing their belief in strategic and tactical reasons which incline Admiral Togo to avoid a decisive action until he has made every effort to demoralize the Russian fleet by torpedo attacks and interference with transports by his cruiser division.

The admiralty scouts the reports that engagements have already occurred, pointing out the great distance separating the places where the dispatches originated. A naval staff captain declared that reports from English sources should not only be doubted, but even mistrusted.

This probability of a sortie by the Vladivostok squadron in an attempt to join Admiral Rojestvensky is discussed by a military weekly paper, which confirms the report that the three cruisers, Grombol, Russia and Bogatyr, have been repaired and that Vladivostok harbor is free of ice, and comments on this accession of strength to Rojestvensky. The paper also intimates that there is a possibility that Vice Admiral Nebogatoff may await a second reinforcing squadron and expresses the opinion that Rojestvensky will now proceed as rapidly as possible to Vladivostok.

Word From Saigon. Saigon, Cochinchina, April 26.—It is reported that four Russian cruisers are lying off the coast.

## NEW LIGHT ON IT

Revised Figures Are Given on the Battle of Mukden.

Gunshu Pass, April 26.—An exact statement of the losses in all categories in the battle of Mukden from Feb. 19 to March 14, compiled by the general staff, shows that the casualties were greatly overstated in earlier reports. Statements from Japanese sources indicating wholesale captures of prisoners, enormous booty and cannon, are now denied. In reality it appears the Russian losses amounted to two generals who were captured, 1,985 staff and other officers and 87,677 men, of whom the greatest part, about 55,000 were wounded. In evacuating Mukden and retreating to the northward the Russians lost thirty-two guns, of which three were mortars, three old type field guns with piston action, and twenty-six quick-firing guns. Of the siege artillery every gun and all the ammunition carts were sent north two days before the retreat began. General Karkevitch, chief of staff, calculates that other losses aside from wounded were as follows: 15,000 killed, 7,000 to 8,000 known to have been captured and 10,000 to 12,000 missing, of whom several thousand were drivers, sanitary and commissariat corps employees and other noncombatants. A very large number were slightly wounded and returned to the ranks, many even resorting to deception in order to leave the hospitals.

This would indicate that the extent of the Japanese victory and the disorder of the Russian retreat have been exaggerated and that the spirit of the Russian army is still strong and the troops not demoralized.

## Meaning of the Alliance.

New York, April 26.—At the dinner of the Society of St. George last night Baron Kaneko, the Japanese diplomat, aroused enthusiasm among the diners by his response to the toast: "The Anglo-Japanese Alliance." He declared that he believed that the alliance, which has until 1907 to run, will be continued. "The continuation of the alliance," he declared, "would mean that France can remain in peaceful possession of her holdings in Asia; that Germany can remain unmolested in the peninsula of Canton; and that Russia will be left unmolested in her proper bounds of Siberia."

## Interesting Point Settled.

Indianapolis, Ind., April 26.—It has been decided at the attorney general's office that the new municipal code does not give mayors authority to remove officers who are now serving under appointment by them or the city council and to appoint their successors. The appointive power will not be vested in the mayors until after the first of next year when the officers elected in November will take their seats.

## The Hospital

Thankful are They Who Escape The Surgeon's Knife

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not.

It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided.

The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is

## Lydia E. Pinkham's Vegetable Compound

Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Paul Oliver, whose letter follows:

DEAR MRS. PINKHAM:—I was suffering from pains in my side and womb. The doctors said to get well I must have an operation performed, but I would not consent to that.

I heard of Lydia E. Pinkham's Vegetable Compound and sent for a bottle; the first dose did me good, and after taking the first bottle I could sleep all right and I did not have those pains around my womb which I had all the time before. Now I can ride ten miles in a carriage, my color has returned, and I am full of life. I owe all this to the Vegetable Compound.

It has also done wonders for my thirteen-year-old daughter. I will never cease to praise it and recommend it to my friends.

MRS. PAUL OLIVER, St. Martinsville, La.

Thousands of women, residing in every city and town in the United States, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills and creates radiant, buoyant female health. For your own sake try it.

## INTERESTING POINT

Can Kentuckians Bring Cigarettes Into Indiana and Smoke Them?

## COURT WILL DECIDE IT

A Case at Jeffersonville Raises a New Issue in the Much Mooted New Law.

Kentuckian Came Across the River, Smoked a "Coffin Nail" and Was Arrested.

Jeffersonville, Ind., April 26.—Judge Abram Schwaninger has under consideration an interesting case under the new cigarette law. James Gales was arrested by Captain Clegg for smoking, a charge of "owning cigarettes" being preferred against him. He had other cigarettes and the "makings" in his pocket, and pleaded guilty to the charge. The judge, who said a few days ago that "the more he studied the law the more he didn't understand it," took the matter under advisement till Thursday morning, when, when smoking cigarettes will be a risky pastime. That this last statement is true was proved when Patrolman Summers made the point that Indiana laws must be obeyed by everybody here, whether he is a Hoosier or not. Seeing a Louisville man smoking a cigarette he arrested him on the charge of making the tobacco cigarette. He was notified to appear in court Thursday morning, so that his case may be dealt with when Judge Schwaninger decides the Gales case.

## PLEA OF NOT GUILTY ENTERED

Virgil Wilson Remanded to Jail Pending Preliminary Trial.

Bedford, Ind., April 26.—Virgil Wilson, accused of attempting to murder and rob Silas Guthrie, an aged farmer, at his home near this city, last Thursday evening, was arraigned before Squire Harris and upon entering a plea of not guilty, he was remanded for preliminary trial until the 27th inst. It is said that Wilson prefers confinement in jail to furnishing a bond, fearing violence from the friends of Mr. Guthrie. The last-named is positive in his identification of Wilson, whom he says he has known from boyhood. Wilson is one of a

number of brothers, two of whom were killed in an attempt at robbery at Tunnelton twenty-odd years ago. The contemplated robbery was "piped off" by one of the gang, and a posse lay in wait, and in the battle two Wilson boys and one of their companions were killed.

## Shocking Tragedy at Fort Wayne.

Fort Wayne, Ind., April 26.—John M. Welker, aged twenty-four, a business man of this city, late last night, in a fit of jealous rage, shot his sweetheart, Minnie Melching, aged twenty-four, who is dying, and after putting a bullet into himself, cut his throat and died in half an hour. The deed was committed in the parlor of the Melching home in a fashionable part of the city.

## Serious Hunting Accident.

Mishawaka, Ind., April 26.—August Fiedlar, a farmer, with a friend, went out to shoot troublesome crows and later Mr. Fiedlar was brought to the hospital here with a shot in the ankle, which necessitated amputation of the leg. Neither the injured man nor his companion seemed to know who was carrying the gun at the time of the accident, nor in what manner it was discharged.

## Beauties of Arbitration.

Indianapolis, Ind., April 26.—According to State Labor Commissioner L. P. McCormack, there are no strikes of any consequence in Indiana at present. "Last year at this time there were seventeen strikes," said Mr. McCormack. "Arbitration is playing an increasingly larger part in the settlement of labor disputes, and I take it that this is a satisfactory sign."

## Now Free to Return.

Muncie, Ind., April 26.—After being on the Delaware county circuit court docket for almost eleven years, the case against Francis Gallagher, charged with the murder of John Reed, has been stricken off and Gallagher is now free to return to this county after killing two fellow glass workers and serving but two years in the penitentiary for the crime.

## Death in Easter Eggs.

Washington, Ind., April 26.—Geraldine, the three-year-old daughter of S. C. Allen of this city is dead from poisoning, the result of eating Easter eggs which had been brightly colored. She was in convulsions for eight hours. Her little sister also suffered great agony from the poisonous dyes, but the physicians saved her life.

## Delegates Are Arriving.

New York, April 26.—Thirty delegates to the international railway congress at Washington have arrived here on the steamer Kron Prinz Wilhelm from Bremen.

## President Is Snowbound.

Glenwood Springs, Col., April 26.—President Roosevelt's hunting trip has been crowned with success far beyond his expectation or those of the most sanguine of his guides. Three bears were killed by the party yesterday and two Monday, one by the president and one by Dr. Lambert. The party is almost snowbound in its present location and no attempt will be made to cross the divide. Fifteen feet of snow is on the ground on the other side, and any effort to reach Red Stone would be futile.

## GIRL'S SECRET.

"Aunt Cassie came to visit us and she saw I was nervous, had the fidgets all the time, and she asked me many questions, and finally said, 'Why, you dear, sweet girl, it's not your temper that's bad, it's your constitution that's out of kilter. You sit right down now and write a letter to Dr. Pierce, at Buffalo, N. Y., tell him all your symptoms'—and so I did. It wasn't long before I had a long reply, carefully going over my case and telling me just what to do. I date my present happiness and little Cupid's return to the very day I sat down to write that letter to Dr. Pierce, for his advice was so good and his 'Favorite Prescription' worked such a complete change in me that now my former cheerfulness and good health—not to say anything of good looks—are restored to me. I have summoned Tom back to my side and we are to be married in June."

The proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. It is natural that a woman who has been cured of womanly disease by "Favorite Prescription" should believe that it will cure others. It is natural too that she should recommend to other women the medicine which has cured her. It is such commendation which has made the name of Dr. Pierce's Favorite Prescription a household word for the past thirty-eight years.

SINCE the new law for the government of cities and towns went into effect many appointive officers have been uneasy about their jobs. Some of the present mayors are contending that these officers can be removed by the mayor at his pleasure since he will make the appointments in the future. But most of the appointive officers contend that they can serve out their two years unless removed for cause by the council. The opinion of the attorney general has been sought in some instances but up to the present time he has not given out an official opinion.

TELEPHONE service, like rural mail service, is a great convenience to the farmer. These modern means of communication are becoming more and more a necessity. The farmers need the telephone and the cities need direct telephone connection with the farmer. That city which has telephone lines extending out into the rural districts in every direction has advantages over the city that does not have them. Every resident of this city sees the need of more telephone lines extending out into the surrounding country. They know that the advantage to the city and to the country is mutual. By these modern means of communication the city and country are brought closer together. A readjustment of some of the telephone lines in this county and the abrogation of some unwise contracts and agreements between telephone companies might help along towards the solution of some present difficulties.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube be restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

**QUIETING DOWN**

Texas Rangers Are in Charge of Disturbed Town.

Hempstead, Tex., April 26.—As a result of the bloody battle here Monday night, when four men were killed and others were wounded, Hempstead is today under the control of the Texas rangers. Martial law has not been declared, but Adjutant General Hullin arrived last night with a number of rangers and assumed charge of affairs. No one is permitted to bear arms, and the excitement has quieted down somewhat.

Rolan Brown, the son of one of the men killed at the prohibition mass meeting Monday night, was placed under arrest and it is said practically admits that he fired the shot which killed Representative John M. Pinckney. He stated that his father was under the influence of intoxicants when he attended the meeting, and that he (the son) attempted to dissuade him from attending. His father was firm, however, in his intention, and went to the meeting. The son followed and took part in the shooting.

It has been established that the trouble began when Captain Brown attempted to secure recognition to speak at the meeting. It is said that his language was offensive to several ladies present, and the fusillade began immediately afterward. Congressman Pinckney was shot four times and was almost instantly killed. Thomas Pinckney, a brother of the congressman, was shot twice in the back and killed, and Captain Brown received a bullet through the heart. John E. Mills, the remaining victim, took no part in the affair and was accidentally killed by a stray bullet.

The killings are the direct result of a prohibition movement in Waller county which was begun some years ago, and the feeling has been intense. An election was held in Waller county April 20th and the prohibitionists, with whom the Pinckneys were affiliated, were successful. The Prohibition League was called together Monday night to wind up its affairs and disband. A resolution requesting the governor of Texas to send troops to Waller county for the purpose of enforcing the law against liquor sellers was excitedly debated. It was at this juncture that Captain H. M. Brown, who had figured prominently as an anti-prohibitionist, sought to have the chairman recognize him, and shortly afterward the firing began.

**THE FINAL WORD**

Taft Says There Will Be No Discrimination in Rates in Panama.

Washington, April 23.—Secretary Taft has made a decision of the greatest importance to railroad interests respecting the policy of the government relative to the existing monopoly of traffic across the Isthmus of Panama and the fixing of rates over the Panama railroad as bearing on the existing rates on trans-continental traffic. The publication of several interviews recently with the secretary himself, with President Shontz of the canal commission and with Chief Engineer Wallace, has led to much confusion in the public mind on these subjects and the secretary concluded to publish a letter he has just written as the best way of making known his own views and purposes. In this letter he makes it plain that there is to be no discrimination whatever as between the several steamship companies in handling their business across the isthmus; that he does not anticipate any considerable effect upon the trans-continental traffic arrangement of Panama railroad rates, but that this readjustment will be had regardless of such efforts.

**RAMSEY IS OUT**

George Gould Will Be Elected President of the Wabash.

St. Louis, April 26.—The announcement was made here last night that at a meeting of the board of directors of the Wabash railroad in New York E. A. Delano, recently elected president of the Wabash, Pittsburgh Terminal Railroad company, was elected vice president of the Wabash railroad in full charge of the property. Mr. Delano will assume charge on May 1. He has appointed Henry Miller, now general superintendent of the Burlington lines in Missouri, as general manager of the Wabash system, the appointment being effective May 1.

The board of directors adjourned until Thursday, when it is expected George J. Gould will be elected president of the Wabash Railroad company. The retirement of Joseph Ramsey, Jr. from the presidency has been expected in railroad circles here for some time.

# A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again. S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of the system. S. S. S. contains a mineral ingredient of the system. S. S. S. contains a mineral ingredient of the system.

## Sure Relief for Women.

No. 18 Central Ave.  
HOT SPRINGS, ARK., April 20, 1908.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. I was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years.

Anna Nelson  
ORATOR, WEDNESDAY CHAUTAUQUE CLUB.

## WINE of CARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## INCIDENT CLOSED

Milwaukee Banks Will Not Suffer From Bigelow's Defalcation.

PERFECTLY SOLVENT

Bank Whose President Admits Stealing More Than a Million Is Not Placed in Jeopardy.

Able to Cope With a Long Run and Come Out With Its Credit Unimpaired.

Milwaukee, April 26.—Confidence has again been restored in the banking institutions of Milwaukee, and the run on the First National bank and the Milwaukee Trust company which was caused by the defalcation of Frank G. Bigelow, until Monday president of the First National bank, of over \$1,000,000, is a thing of the past and banking affairs in Milwaukee have resumed their normal condition.

While the two banks affected are entirely separate institutions, the fact that they occupy adjoining buildings and that some of the First National bank's officers direct the affairs of the Milwaukee Trust company, caused many of the depositors to believe that one was a part of the other.

Before the hour for opening the banks had arrived, a meeting of the Milwaukee Clearinghouse association was held and a committee of that institution, after examining the assets and collateral of the First National bank, issued a reassuring report. This report was printed in large type on placards and pasted on the windows of the First National bank, and also displayed in store windows. Following this was a statement issued by the board of directors of the First National bank announcing with absolute positiveness that the bank was perfectly solvent.

And on top of this came word from the board of directors of the Milwaukee chamber of commerce announcing its decision not to withdraw its current expense fund from the First National. All of these statements had a reassuring effect on depositors as to the stability of the bank.

The banks affected were able to cope with a long run, but it was decided by all the banks in the city to take advantage of the law on time deposits requiring a notice of thirty days of withdrawal on amounts less than \$100 and ninety days where the amounts exceeded that sum. As rapidly as the depositors appeared at the wickets of the savings departments of the affected institutions their pass-books were stamped acknowledging the notice of withdrawal, and the depositors took their departure. It only required about two hours to dispose of the line of depositors.

No trace has been found of Henry G. Goll, the missing assistant cashier of the First National bank.

TURKS WORRIED  
The Sultan Is Likely to Lose One of His Provinces.

London, April 26.—A dispatch from Oden says the situation in Turkish Arabia has become critical. It transpires that only a thousand of the Turkish troops sent to the relief of Riza Pasha reached Sanaa, and these fled thither after sustaining a defeat at the hands of the insurgents. Riza Pasha's troops, 6,000 strong, encountered the Arabs in great force five miles south of Sanaa, and after a sharp encounter most of the troops, consisting of Syrian reserves, laid down their arms or deserted, the remnant of the Turks managing to reach Sanaa with only fifty camel loads of supplies.

The Chief of Staff Izzat Pasha, was killed, and seven guns were abandoned and taken possession of by the Arabs, who also captured two camel loads of provisions and large quantities of rifles and ammunition. The investment of Sanaa by the insurgents is being tightened. The Syrian reinforcements, which recently arrived in Arabia, are unsatisfactory and the Ottoman officials are anxiously awaiting the arrival of European battalions, upon whom the fate of the capital of Yemen province depends.

President in Dictatorial Role.  
San Francisco, April 26.—Passengers who have arrived from Guatemala declare that a veritable reign of terror exists in that country. President Cabrera rules as an absolute monarch and speech is limited and the press is under censorship. It is declared that a revolution which is already organized will cover the country with blood and jeopardize foreign interests.

## A Serious Mistake.

It is a serious thing to neglect your heart.

The moment you detect any weakness or irregularity, such as short breath after exercise, palpitation, fluttering, weak or hungry spells, pain in breast, side or shoulder, or uneasiness when lying on left side, you should take Dr. Miles' Heart Cure; it rarely ever fails to relieve all these symptoms.

If not promptly restored, chronic heart disease soon develops, and then it only remains for some sudden strain to completely exhaust the heart.

Thousands of hopeless cases have been cured, and if you do not try it, it will be the greatest mistake of your life.

When I began taking Dr. Miles' Heart Cure I was in a very bad condition. I had stomach trouble, with severe distress after eating. My heart hurt me, and I had shortness of breath, palpitation. My pulse was irregular, and my feet, ankles and hands were swollen. Every month at regular periods I had severe pain. I wrote Dr. Miles, Medical Co., and they advised me to take Dr. Miles' Restorative Nerve and Heart Cure. I soon noticed an improvement, and I continued the medicine until I was completely cured. I feel like a different person. In fact I have not felt so well for 20 years.

## PREPARING THE WAY

New Asylum Commission Looking About a Bit.

Indianapolis, Ind., April 26.—Governor Hanly left last night for Logansport to join the members of the commission appointed to locate and superintend the erection of the South-eastern Indiana hospital for the insane. They inspected the Northern Indiana hospital at Logansport today. They will visit the Eastern Indiana hospital at Richmond Thursday. The commission will meet at the governor's office May 3, to hear from delegations representing the cities that are trying to locate the new institution. Large delegations will come from Columbus, Seymour, North Vernon, Madison and Bedford. After hearing them the governor and the commission will visit all the sites that are offered. It is probable that one will be selected within the next six weeks. The law providing for the hospital specifies that it shall be located where the railroad facilities are best and where sanitary conditions are good. It is believed that either Columbus or Seymour will get it. The statement is made at the governor's office that politics will not figure in selecting a site.

If the anti-cigarette law is rigidly enforced it may widen the breach between the state administrations of Kentucky and Indiana which have not been on friendly terms since the refusal of the late Governor Mount to honor a requisition for the fugitives Taylor and Finley. Instructions have been issued at Jeffersonville, New Albany and other Ohio river cities for the arrest of all cigarette smokers whether or not the native born Hoosiers who are supposed to keep in touch with their own laws. A Louisville man has been arrested at Jeffersonville for smoking a cigarette and ordered to appear in court there Thursday morning to answer to the charge of violating the new law. Speculation is now rife as to whether or not a requisition will be necessary to get him back into this state and whether or not Governor Beckham would honor it. Governor Hanly believes that the anti-cigarette law forbids smoking and he intends to enforce it as broadly as possible if the supreme court holds it constitutional, but it is not known what views are held by the governors of adjoining states who may be asked to turn over their own constituents who have been caught smoking across the Indiana line.

The race for congress in the First district promises to warm up in fine style during the next few weeks. Major G. V. Menzies has been notified of his nomination by several hundred Democrats who came from all parts of the district for that purpose. His ability as a campaigner is well known throughout the state and Democratic leaders are counting on him making a fine showing. The First was a Democratic district before Mr. Hemenway became a candidate for congress. He is just as anxious as ever to have it go Republican, but the Republican campaign will be minus the influence of his personality as a candidate. Major Menzies is said to have a great following among the Republicans of the district. If he can get their votes and his own party stands by him he may have a show in spite of the big majority rolled up by the Republicans last year. The result of the election will at least furnish an interesting comparison as it will show whether or not the Republicans can keep up the landslide pace that marked the close of their campaign last November. Major Menzies and Judge Foster, the Republican candidate, expect to make a tour of the district.

The effort of the government to stamp out the lottery business in Indiana is causing consternation among the agents and thousands of devotees of the game. The state and local authorities have been unable to cope with them successfully but now that the federal government is taking a hand the result may be different. The United States marshals here have arrested four agents and will go after more as rapidly as they find them. The charge against the agents is violation of the interstate commerce law. There is much curiosity as to the outcome of the preliminary hearings. Thousands of holders of tickets are trying to get form sheets to see whether or not they have won anything on last month's investment, but these sheets have been confiscated here. It is difficult to estimate the number of people who buy lottery tickets, but it is said here that some of the agents have done an immense business. Hundreds of men and women who proclaim loudly against all forms of gambling buy lottery tickets on the quiet and are much disturbed by the prospect of the federal government interrupting their gambling.

Train Plunged Into River.  
Hinton, W. Va., April 26.—A passenger train struck a tree at Cass on the Greenbrier division last night, and the entire train was thrown into the river thirty feet below. The train consisted of an engine, combination coach and day coach, all of which were destroyed. The engineer and fireman were badly injured and six passengers were slightly hurt.
